- The VFX is looping VFX and you just have to drag and drop into your scene to use it
- You will have 2 VFX shaders and some Sub shaders. But remember to not touch them. They are dangerous things.
- You have some parameters to control the VFX:

- Color-main: control the color of the VFX
- Thruster power: control the power of the thruster (also control the amount of the sparkles).
- Sparkles amount: spawn rate of the sparkles.
